Hello Paly Staff Member!

You’ve been invited to attend **May’s Cool Calculus Convention** put on by the senior sections of Calculus! On **Monday, April 29th**, from **8:20am - 2:50pm**, 1st and 2nd period calculus students will be hosting an exhibit that we encourage you and your classes to attend!

Some of the AWESOME exhibits our students are preparing include building a scaled down model of the Golden Gate Bridge, cooking marshmallows using a Parabolic Mirror, constructing an awesome string art pattern and so much more!!

Come to the **Quad** anytime next Monday and prepare to be AMAZED! Can’t wait to see you and your students there!
