Are you interested in deepening your Project Based Learning instruction?

The Professional Learning and Leadership team has an exciting opportunity to do just that!

You will get to see a veteran PBL teacher engage her 7th and 8th grade class in a humanities lesson. The lesson study team will then debrief and hear expert commentary.

Following the lesson study protocol, all participants and guests are invited to participate in PBL based workshops. The workshops will be an opportunity to deepen PBL understanding & connect with other practitioners across SF.
