Directions: Each day this week, you will respond to ONE journal prompt in your science journal. Please respond using 5-8 sentences per entry and respond to each question in the journal prompt. Be honest and thoughtful with your responses, there are no “correct” answers.

Day:
1. What was challenging for you as you completed this task today? Explain. Are you excited for the rest of the week? Explain why or why not.
2. How could you classify the items that you have collected so far? What are some items that had to be thrown out and you couldn’t add them to your trash bag?
3. Do you notice any specific activities that accumulate the most amount of waste? Is there a specific time of day where most waste is accumulated?
4. How do you think your trash accumulation compares to that of your classmates? Your friends outside of PBL? Your family members?
5. Do you have a feeling of pride or shame looking at your trash bag? Explain why.

You can drop off your trash bag after school on Friday. Be ready to share your thoughts on Monday!
