

## Drafting & Revision Planning Sheet

First, set clear goals!

Vague Goals (not too helpful)	Specific Goals (very useful!)
I will make my drawing better.	I will draw this again using the rule of thirds to set up my composition.
I will make my story more interesting.	I will use figurative language when describing the setting, especially during the scenes that show the places where characters have conflicts—then I will use similes or metaphors that match the mood.
I will make my bridge stronger.	I will revise the design of the bridge to use larger anchors and more four more hangers along each of the main cables.

What are your goals?

Using comments from peer critique and from examples from class, set three goals for your next draft.

Goal #1
Goal #2
Goal #3
